

## Cap Size Chart

Use this chart of hat sizes below to determine your size.

If your head size falls in between two sizes, you should choose the next larger size.

<b>INCHES</b>	20 3/4	21	21 1/2	22	22 1/2	22 3/4	23
<b>CENTIMETERS</b>	53	54	55	56	57	58	59
<b>FITTED HAT SIZE</b>	<b>XS</b>	<b>S</b>		<b>M</b>		<b>L</b>	
<b>HAT SIZE</b>	6 5/8	6 3/4	6 7/8	7	7 1/8	7 1/4	7 3/8

<b>INCHES</b>	23 1/2	24	24 3/8	24 3/8	25 1/8	25 1/2
<b>CENTIMETERS</b>	60	61	62	63	64	65
<b>FITTED HAT SIZE</b>	<b>XL</b>		<b>XXL</b>		<b>XXXL</b>	
<b>HAT SIZE</b>	7 1/2	7 5/8	7 3/4	7 7/8	8	8 1/8

Note, if your head measurement came out to be 22 1/4 inches, you would move up to the 22 1/2 column (the blue one above). Following it down, you would find you are a size M (Medium), or a 7 1/8 hat size.

### FITTED HAT SIZES FOR FLEXFIT HATS

Flexfit hats have a range of sizes, such as S/M (Small through Medium). So a S/M hat would fit heads with measurements of 21 inches to 22 1/2 inches, or hat sizes 6 3/4 to 7 1/8.

A L/XL (Large through Extra Large) hat would fit measurements just over 22 1/2 up to 24 inches, or hat size 7 1/4 to 7 5/8.

### ONE SIZE FITS MOST

If a hat does not list sizes, it is a 'one-size-fits-most' hat. It will fit sizes from hat size 6 3/4 up to 7 5/8.
